

Cambridge Public Schools

Office of Student Services

Strategic Plan

CPSD, Office of Student Services Strategic Plan

Introduction by the Assistant Superintendent of Student Services:

The Cambridge Public Schools Office of Student Services Strategic Plan, 2015-2018, that follows is the result of hard, meticulous work, many meetings and drafts by the primary stakeholder groups for the Office of Student Services. This work was made possible due to the candid input, collaboration and support from students, parents, families, school and district leaders, teaching and support staff, partner agencies, The Special Education Parent Advisory Council and the Cambridge School Committee.

We commenced the process during our annual leadership retreat July 2014 by reviewing our short-term goals from the previous year. Our OSS Leadership Team realized there were numerous areas in our department that needed a long-term plan with action steps to guide our work for continuous improvement. After we reviewed the previous strategic plan from July 2000 the leadership team and I dedicated time over the course of a couple of months during our weekly leadership meetings to discuss next steps. I shared our proposal to develop a long-term strategic plan for the Office of Student Services with Superintendent Young and Deputy Superintendent Turk. Our team started to directly engage our stakeholder groups October 2014 beginning with parents/families, our lead teachers, school psychologists and school counselors. We developed a comprehensive calendar to conduct input sessions over the next five months of all of our stakeholder groups to ensure there were multiple sessions and opportunities to share input regarding the plan. Additionally, we provided anonymous opportunities to give input through surveys. Therefore, parent/family and staff surveys were conducted from January through March to allow more opportunities for input into the plan.

I would like to thank Jean Spera for her leadership in ensuring the project stayed on schedule, Rebecca Altepeter, Karyn Grace, Shelagh Walker and Marc Wright for processing all of the input and data around the major issue areas and drafting goals and actions steps based on the input and data received and Judy DeVincent for scheduling the input sessions and compiling and consolidating this document. Lastly, I would like to thank all of the individuals who participated in focus groups and completed surveys that provided the data for the basis of this plan.

Dr. Victoria L. Greer

The Office of Student Services Statement of Core Values

The core value of the Office of Student Services is “*Service.*” The Office of Student Services is committed not only to the special education services rendered to the students in Cambridge Public Schools but we are also committed to servicing our parents/families, staff, other leaders and the overall Cambridge community.

Office of Student Services Leadership Core Values

It is the value and belief of the leaders of the Office of Student Services, that if we create the structure, conditions and support for our staff, then students will be afforded a high quality education and experience positive school outcomes as communicated by our vision.

Our leadership core values are adapted from the Nine Keys to Business Wisdom by Peter Koestenbaum. The Office of Student Services leadership team leads by these values:

1. Personal Responsibility- the Leadership in the Office of Student Services takes personal responsibility for creating the structure, process and procedures that guide the work of our staff and the implementation of services for our students and the outcomes for those services.
2. Business as a Vehicle to Achieving Greatness- the Leadership in the Office of Student Services recognizes its commitment to ensure organizational management including the fiscal and operational management of the department and its commitment to both internal and external customer service.
3. Two sides of Leadership- the Leaders in the Office of Student Services are committed to leading both from the strategic and personal sides as leaders. We recognize that it takes clear strategy to execute the programs and services efficiently but also that everything that we do is founded in our ability to lead with strong values, ethics, responsibility, accountability, loyalty, commitment and courage.
4. Teamwork as a requirement of Leadership-It is our commitment as leaders in the Office of Student Services to operate as an effective team and model and support effective collaboration and communication for our staff as they work collaboratively with parents and general education teachers and staff at the school level.

Overview:

The Office of Student Services (OSS) is responsible for providing a variety of supports and services to students in Cambridge public schools (CPS). Our programs are dedicated to ensuring equitable access and success for students with disabilities and students who have advanced learning needs. The Office of Student Services is comprised of special education, 504 services and the office of advanced learning.

The Office of Student Services supports and implements special education programs and services for students ages 3-22 who meet the eligibility criteria established by the Massachusetts Department of Elementary and Secondary Education. Our services range across the continuum based on the individual needs of our students. The Individualized Education Plan (IEP) designates these services. A team made up of parents, special education teachers, general education teachers, school administrators and related service providers collaboratively develop this plan.

In addition, 504 services are provided through general education structures to support students with disabilities who do not require specialized services or programs delivered through special education teachers or service providers. These students are best supported through specific accommodations delivered by the general education teacher. A 504 Accommodation plan is developed collaboratively by a team made of parents, general education teachers and school administrators.

The office of advanced learning is responsible for providing direct support to students and teachers, and professional development to address the advanced learning needs of students in CPS. Students with advanced learning needs are supported through teachers collaborating to design differentiated lessons and implementing differentiated strategies that address their individual needs. For some students, Enriched Learning Plans (ELP) are developed collaboratively by a team made up of parents, general education teachers, school administrators and the Academic Challenge and Enrichment Support Program Manager.

The Office of Student Services is comprised of approximately 1400 students that receive special education services, over 300 students with 504 service plans and a number of students with advanced learning needs. This department employs approximately 350 teachers, Para-professionals and related services staff who provide consultation and direct services to our Cambridge students. Approximately, 5% of students require intensive services in substantially separate programs within the district. Specialized programs exist for students with autism, learning disabilities, emotional disabilities, developmental disabilities and multiple disabilities including those with cognitive impairments. There are six full time administrators who manage and supervise the Office of Student Services staff, programs and services.

Vision:

The vision of the Office of Student Services is that “Students receive a high quality education in the least restrictive environment through the provision of Specialized Services and Supports that meet their unique learning, social, emotional, and behavioral needs.

The intent of our vision is to ensure that students with disabilities and those who have unique learning needs are:

- Educated in environments with peers who do not have disabilities as often as possible
- Educated by individuals in ways that address the specific areas that impact a student’s ability to access the curriculum
- Allowed opportunities to have embedded opportunities to expand their learning to reach their full capacity and potential for success in all areas

Mission:

To collaborate with the school community, families, students, and community stakeholders to ensure the academic, social, and emotional success of every Learner.

Purpose of the Plan:

Cambridge Public Schools has experienced many changes over the past six years; one of the changes has been in the area designed to support students with disabilities in the district. At one time, the Office of Student Services was formally known as the Office of Special Education (OSE). Under the direction of Superintendent Jeffery Young, the Office of Special Education was redefined and renamed during the 2012-2013 school year to the Office of Student Services. The change occurred to recognize that there is a large student group represented in Cambridge Public Schools who require the support that is embedded in the core of the overall district and school environments, hence, the Office of Student Services.

The purpose of developing a long-term strategic plan is to give clear focus and direction for achieving the outlined and communicated vision of the Office of Student Services based on measureable data and outcomes.

Background for development of the Plan:

The foundation of the need to develop the strategic plan was based on the input received during the entry meetings conducted by the Assistant Superintendent of Student Services in regards to the first year of the change to the Office of Student Services. Those sessions yielded data that showed a disconnect between the Office of Student Services and other key areas of the district, a lack of clarity and focus of programs and services for students with disabilities, a lack for clarity regarding the roles and responsibilities of special education staff and service providers, and a break down of collaboration and communication with parents, families and community stakeholders. The last strategic plan was completed July 18, 2000 with a progress update on September 2006. A review of the plan and its progress update revealed that many of the key areas of concern that were identified, remain areas of concern as was communicated through surveys conducted with staff, parents, families and community stakeholders and the entry meetings.

The development of this strategic plan was always planned as a collaborative process to engage all the major stakeholder groups. Data was collected through surveys and focus groups. The major strategic issues were developed from a review of data and input. Each stakeholder group was asked to give input and suggestions for improvement regarding the six major issue areas:

1. Organization & Structure
2. Communications
3. Inclusive Education
4. Processes & Procedures
5. Program Enhancement/Improvement
6. Professional Development

Goals statements were then defined based on the input and data surrounding each major issue area.

For each major issue, members of the Office of Student Services leadership team are assigned as monitors to coordinate implementation.

1. Organization & Structure (Fiscal and Operations Manager)
2. Communications (Pre-School Coordinator)
3. Inclusive Education (Coordinator of Instruction)
4. Processes & Procedures (Director)
5. Program Enhancement/Improvement (Coordinator of High School/Upper/Out-of-District)
6. Professional Development (Coordinator of Instruction)

The Assistant Superintendent of Student Services is responsible for the overall monitoring and execution of the strategic plan.

Following are some very critical data points that were captured through surveys and focus groups that led to the construction of the major issue areas outlined in the plan:

General Education Staff Survey Results:

- 53.92 % of persons responded that they were satisfied with the level of support from the leadership in the Office of Student Services while 37.25% were not satisfied during the 2013-2014 school year.
- 39.71% of persons responded that they were satisfied with the guidance they received regarding the IEP meeting facilitation while 21.5% were not satisfied with the facilitation of the IEP meetings.
- 62.26% of persons responded that student behavior (26.96%); decision-making (19.61%) and inclusion (15.69%) were the major issues regarding students with disabilities during the 2013-2014 school year.
- 34.80% of persons responded that they were satisfied with the time allotted to collaborate with special education staff while 50.59% of persons responded that they were not satisfied with the time allotted to collaborate with special education staff.
- 70.59% of persons responded that if they had a question, concern or need that they were able to find the information needed in a timely manner while 29.41% responded that they were not able to find the information needed in a timely manner during the 2013-2014 school year.
 - Some specific quotes regarding this question that stood out are as follows:
 - *“Support is needed within the district to streamline the paperwork procedures and allocate time to completing paperwork while maintaining a high level of service delivery and teaching.”*
 - *“The length of time between an inquiry around protocol was met with resistance and much delay.”*
 - *“I feel like I had to ask many people the same question to see who had what information-it was not always clear who to go to with questions.”*
 - *“Unclear about the roles within OSS, responsibilities of special educators in the building.”*
- 83.33% of persons responded that the top three persons they would contact if they had an issue or problem related to special education/504 would be their psychologists (39.22%), the special educator (32.35%) or their principal (11.76%).

- Below are recommendations that were made to improve special education and 504 services in Cambridge Public Schools:
 - *“We need to address building wide behavioral issues and communication between general education and special education staff. We need to broaden the understanding principals and assistant principals have of students with IEPs and 504s. We need to build capacity within general education teachers and their assistants offering staffing support for the most challenging. We need time to meet to plan collaboratively.”*
 - *“Built in time for classroom teachers to collaborate with special educators. We also need a cap on the number of students a case manager is allowed to have.”*
 - *“We need school psychologists to be more visible and involved. Schools have not had guidance at a staff meeting in several years. Many teachers have questions that have been unanswered for many years.”*
 - *“ A way to review policies and procedures with intention to improve.”*
- Below are responses to the practices that should be preserved by the Office of Student Services:
 - *“Continued check-ins from the special educators was crucial, helpful and necessary to meet the needs of students we support.”*
 - *“The focus groups have felt like a helpful way to get and give information with OSS throughout the district.”*
 - *“The weekly/bi-weekly CST meetings, the dept. meetings, the weekly updates and having more OSS staff present at schools which I have seen more of this year and last.”*
 - *“Newly formed department meetings.”*

Parent Survey Results:

- 43.59% of parents responded that during the 2013-2014 school year, they were not satisfied with the special education services received in their school while 30.77% were very satisfied and 25.64% were satisfied.
- 30.77% of parents responded that they were very satisfied with the related services they received during the 2013-2014 school year while 38.46% were satisfied and 30.77% were not satisfied.
- 43.59% of parents responded that during the 2013-2014 school year, they were not satisfied with the administrators in the Office of Student Services while 25.64% were very satisfied and 30.77% were satisfied.
- 48.72% of parents responded that during the 2013-2014 school year, they were not satisfied with the way their IEP team meeting was facilitated/conducted while 35.90% were very satisfied and 15.38% were satisfied.
- 64.10% of parents respond that during the 2013-2014 school year, they were satisfied with their child's special education transportation while 20.51% were very satisfied and 15.38% were not satisfied.
- 53.85% of parents responded that during the 2013-2014 school year, no one reviewed the IEP/504 process with them prior to making decisions for their child's services/accommodations while 46.15% responded that someone did review those processes with them.
- 53.85% of parents responded that during the 2013-2014 school year, they were able to find the information they needed in a timely manner while 46.14% responded that they were not able to find the information the needed timely.
- 48.72% of parents responded that if they had a concern regarding their child with a disability, they would contact the special educator first, followed by the psychologist (23.08%), the principal (12.82%) and the assistant superintendent (10.26%).
- Below are recommendations to improve special education and 504 services:
 - *"More transition people to facilitate College/workplace training, etc."*
 - *"Provide more professional development for staff working with children."*
 - *"Better link special education and general education."*
 - *"Culture needs to change so that parents do not feel like they are causing problems by asking questions and advocating for kids."*

- Below are areas that the Office of Student Services has done well and parents would like to see continued:
 - “Renewed energy and commitment.”
 - “The staff commitment and amazing individuals.”
 - “Have the best interest of the child and not money.”
 - “The teachers who are certified in Orton Gillingham they are successful in teaching dyslexic children. The restructuring of the OSS administration was a good plan.”

OSS Staff Survey Results:

- 60.20% responded that during the 2013-2014 school year, they were satisfied with the level of communication from the leadership in the Office of Student Services while 12.24% were very satisfied and 27.55% were not satisfied.
- 48.98% responded that during the 2013-2014 school year, they were satisfied with the level of support from the leadership in the Office of Student Services while 15.31% were very satisfied and 35.71% were not satisfied.
- 57.14% responded that student behavior and decision making were two of the top three issues they faced while 51.02% responded that resources were one of the top issues they faced.
- 57.14% responded that they were not satisfied during the 2013-2014 school year with the time allotted to collaborate with general education staff while 26.53% were satisfied and 10.20% were very satisfied.
- 67.35% responded that during the 2013-2014 school year, they were able to find information that was needed in a timely manner while 32.65% were not.
- 52.04% responded that if they had an issue or problem related to special education or 504 they would contact their school psychologist first, while 15.31% would contact the teachers-in-charge.

- Below are recommendations to improve special education and 504 services:
 - *“So much time is spent writing/developing IEPs, writing reports, progress notes, and OSS paperwork related to case management. Having someone else take over case management would make sense overall, since there is so much to keep straight and with which to comply.”*
 - *“On-going professional development.”*
 - *“Develop clear protocols for resolving complex student cases in a timely manner.”*
 - *“Special Education manual, we need more uniformity in decisions prior to the school year beginning.”*
- Below are practices that the Office of Student Services should preserve:
 - *“Newsletters are a great way to get information out.”*
 - *“Thank-you for asking for feedback. It is much appreciated! Also having a specific lead for related services.”*
 - *“Communication via webinar.”*
 - *“Everyone meeting before the school year begins to receive new information and focus for the upcoming year.”*

Key Strategies:

The Office of Student Services will pursue the following critical strategies:

- Accelerate actions to streamline and improve quality of service to students and families
- Enhance the use of technology to expand and promote more efficient service provision
- Strengthen human relations function and develop positive interactions between families and key district staff and departments
- Strengthen web and social media presence in promoting the department
- Expand community partnerships to align school and community supports for students and families

**OSS Strategic Plan
Processes and Procedures**

Goal: To develop and publish OSS departmental processes and procedures relative to staffing plans and servicing students with disabilities while ensuring state and federal compliance.						
Objective/Action Steps	Lead Person(s) / Team	Start Date	Interim Date	End Date	Resources	Measurable Outcomes
<p><i>OBJECTIVE 1: To establish a consistent and coherent process for the identification of students with disabilities beginning with a well defined and articulated referral process.</i></p> <p>Action Steps</p> <p>a. Identify workgroups to define and develop a Student Support Team (SST) process for the elementary, upper, and high schools.</p> <p>b. Create an SST protocol with a specific meeting structure, forms, and progress monitoring tools. <i>Examples: SST Meeting Agenda, Referral Form, Parent Notice, Intervention Documentation Form, Data Collection Form, Referral to OSS Form and Referral Packet Guidelines</i></p> <p>c. Develop and implement clearly articulated district-wide guidelines for the referral of students. <i>Examples: Meetings with school administrators, training for school-based teams, formulate a district-wide intervention protocol, teacher and parent presentations, etc.</i></p> <p>d. Institute a monitoring system.</p>	<p>Director</p> <p>OSS Executive Leadership Team</p> <p>School Psychologists/ Team Chairpersons</p> <p>School Administration Representatives</p>	6/15	a.12/15 b. 4/16 c. 11/16 d.3/17	6/17	<p>Federal and State Laws and Regulations</p> <p>OSS Documents</p> <p>MA-DESE MTSS Guidance</p> <p>MA-DESE IEP Forms and Notices</p> <p>MA-DESE Technical Guidance/Advisories</p> <p>Coordinated Program Review</p> <p>MA-DESE IEP Improvement Project</p> <p>Legal Counsel</p> <p>District Administrators</p>	<p>CPS SST Referral Protocol</p> <p>District-wide guidelines for referral of students</p>
